

PRATESI GROUP

MISSION

PRATESI GROUP was born for the will of a group of companies, technicians and consultants with multi-year experience in the fields of mechanic, industrial systems, constructions and renewable energies with the purpose of answering in synergy as a unique EPC* interlocutor to the increasing complexity of the orders and to the growing demand of multidisciplinary competences suggested by the market. Since the beginning the group has acquired important orders from Oil & Gas compartments principal actors, Energies and Automotive, developing what the founders consider the only conceivable mission to compete in the global market, that is: **THE SATISFACTION OF THE CUSTOMER BY ANY MEANS.**

WHO WE ARE

PRATESI GROUP is an EPC specialized in orders and contracts "key in hand" management for the civil works production, systems and machineries. Customers satisfaction and continuous aim to increase the quality standards, has always been and always will be the main characteristic of the group. The non-stop research of reliable partners of proven experience in the fields of design, new technologies and engineering work production, along with the continuous intent to give a boost toward innovation represents a plus, which gives the best competences of the market to the customer.

HOW WE OPERATE

PRATESI GROUP is daily committed to search and value new companies, materials, technicians and consultants in order to constantly enrich the group of persons able to product the orders. After the order entrust, the group is the unique responsible for the EPC work in every aspect; technical, legal, administrative and financial, until the complete respect to the customer's specifications.

INDUSTRIAL SYSTEMS

“ As a group, the sharing of the know-how improves our analytical ability and let us offer a complete range of multidisciplinary services while maintaining the concept of innovation, plus value and collaboration. ”

We give the following "key in hand" solutions to the customers:

- Electric Civil and industrial systems
- Weather discharge protection systems
- Anti-explosion electric systems (Atex)
- Closed-circuit TV systems and video control
- Warning systems
- Fire detection systems
- Access control systems
- Control and supervision structures for sound diffusion, notice and evacuation systems
- Distributed intelligence systems of room automation for every kind of hotels, residences and buildings
- Heat systems
- Conditioning systems
- Air treatment systems
- Fire systems: hydrant, sprinkler, NAF SIII, Co2, foam
- On pressure systems
- Lifting systems
- Water and drain systems
- Machineries

CONSTRUCTIONS

“ Our purpose is to daily follow the concept of Holism (The natural tendency of creating a whole that is bigger than the sum of its parts. Through the creative evolution) ”

PRATESI GROUP puts his experience at the fingertips of investors interested in financially participating to various and complex productions in the field of constructions for the following types of creations:

- Residential compounds
- Holiday camps
- Hotel compounds
- Directional structures
- Industrial compounds
- Eco-sustainable buildings

RENEWABLE ENERGIES

“ Our staff is used to work in a multidisciplinary team where is encouraged about thinking in terms of projects global earnings. This approach is the cause of our good reputation on the supply of interdisciplinary solutions that bring a plus on the whole life-cycle of the project ”

PRATESI GROUP gives the following "key in hand" solutions on renewable energies to the customers:

- PHOTOVOLTAIC SYSTEMS
- EOLIC SYSTEMS
- GEOTHERMIC SYSTEMS
- BIOMASS SYSTEMS

The systems offered are inclusive of all construction permits necessary for their installation.

ENGINEERING AND ARCHITECTURE

PRATESI GROUP put his experience at the fingerprint of companies and customers even for engineering services alone, in particular for the following branches:

CAD 3D MECHANICAL DESIGN

3D Modeling performed with:

- Pro/Engineering • SolidWorks • Inventor
- Siemens Unigraphics NX • Catia

CAE MECHANICAL DESIGN

Calculation model planning elaborated with:

- Ansys • Astran • MSC Adams

PED DIRECTIVE

- Pressure devices design (PED 97/23/CE Directive) • CE stamp documentation editing: Technical brochure, manuals, risk evaluation, etc.

MACHINERY DIRECTIVE

- Uplifting systems design (2006/42/CE Directive) • CE stamp documentation editing: Technical brochure, manuals, risk evaluation, etc.

CIVIL WORKS DESIGN

- Architectural design
- Structural design of concrete steel works, wood and steel • Detailed plans design and editing • Urban works design and sizing
- Architectural design of buildings for tertiary or industrial use • Architectural design for scientific and conservative restauration interventions • Interior and furniture design • Events stand design
- Municipality permission documentations editing • Land register documents editing
- Technical consulting, construction and energetic estimates

WORK DIRECTION AND SITE ASSISTENCE AND TESTS

- Civil and Systems work direction
- Measures • Book-keeping • Project and making general coordination • Planning and control of execution times • Test assistance
- Test

SITE SAFETY

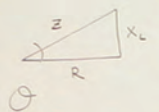

- Site safety coordination in the design phase • Site safety coordination in the making phase

RENDERING

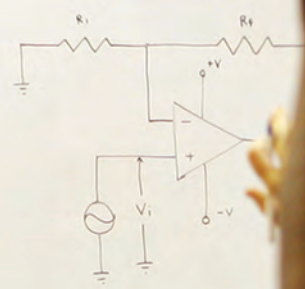

- Photorealistic rendering editing • Interior rendering • External rendering • Civil works rendering • Park and Gardens rendering
- Product or Architectural animations

CIVIL AND INDUSTRIAL SYSTEMS DESIGN

- Civil and industrial systems design
- Weather discharge protection systems design • Atex systems design
- Special systems design: TVCC, Warning, LAN (Local Area Network), Regulation and control • Photovoltaic systems design
- Eolic systems design • Heat systems design • Fire systems design • Conditioning systems design • Air treatment systems design

$$\cos \theta = pf$$

BUSINESS CONSULTING

PRATESI GROUP avails itself of the collaboration with professional consultants and develops pronounced synergies by linking together every division of the company, promptly attending on the weak areas trying to constantly optimise the business processes with integrated solutions. PRATESI GROUP operates on the following branches:

LEGAL

- Works right • Credits recovery • Union right
- Job safety • Contracts • National / International arbitrations • Company right
- Bankruptcy right • Civil right • Marks and patents • Consortium practices • Contract and company consulting with particular reference to taxes • Administrative and judicial assistance on tribute disputes

COMMERCIAL TRIBUTES

- Tribute planning • Company consulting
- Tribute disputes • Funded budgets • Contract and fiscal consulting • Budget analysis
- Company transfer • Direct and indirect taxes
- Tribute dispute • Inheritances

COMPANY ORGANIZATION

- Company governance • Analysis of company organizational structure and company processes
- Quality environmental systems and safety
- Selection of company training resources
- Training and upgrading professional and entrepreneurial courses • Operative and strategic marketing: Computer processes for company economic, productive and financial planning
- Company finance • Overdrafts warrantee
